

FREEWAY PROPANE NEWSLETTER

May 31, 2012

It looks like summer is here. I think we skipped over spring and fell right into summer. We have started to fill our storage for the upcoming winter season. Because of the past and recent events that have taken place with the economy, we feel the price of propane is at, or almost at, its lowest point of the year. If you are looking to fill up your tank for the coming winter, now would be a good time to do it. When fall arrives, top your tank off for the winter again.

The reports we receive from all of the major energy companies, as well as the department of energy, indicate the flow of propane is being sent to Texas via pipelines, loaded onto ships and sent all over the world. One such report has wholesale propane in Saudi Arabia priced at \$1.90 per gallon. That is a wholesale price, not a retail price. With prices like that our propane will continue to be shipped out of the country as fast as ships can be loaded and set sail.

Summer is also a good time to keep up on some house cleaning with not only your tank, but your propane system too. If your tank is leaning or rolling one way or another, give us a call. We will be happy to come out and make sure your tank is properly set and stable. There is a charge for self-owned tanks. If you are worried that some of your gas appliances are not burning gas properly, or you think you may have a leak in your system, call us at 801-798-3943. We will come out and perform a gas check on your system and make some recommendations for a fee.

If you are interested in getting on a budget payment plan with us, June is the time to start. It is easy and fast. You will need to call our office and speak with Deborah. She will then audit your account and set you up with a monthly payment. Call after 1 p.m. or leave a voicemail to extension #101.

Grilling season is here! We have a grill of a deal on a six burner stainless steel grill, (a great Father's Day idea). We have propane fire rings that can be installed in an outdoor fire pit for the do it yourselfer. These come in various sizes between 12" and 36". Come see our show room and check out these items, as well as our other neat propane toys at 1240 South 2000 West, Springville.

We at Freeway want to thank all of you, our loyal customers, for the business you give us. We appreciate it and value you greatly.

Rich Maughan
